

Thank you for your donation of 3 bikes, Exact Sciences!

“I am so grateful for the most beautiful gift I received – A unique bike! A dream bike! I used it for going to ESOL, shopping, jobcentre appointments, doctor appointments etc. My friends were jealous of my bike, asked me how I afford it since I do not work, I do not speak English, being new to the country, benefit capped – I told them “I am lucky that I am donated this lovely gift by the most kind organisation” - Gholam

“I would like to thank you for donating the best gift ever, a beautiful bike with helmet, I was donated a second hand bike by our neighbour , which needed new tire and due to benefit cap, 5 children, utilities and other expenditure I was thinking to myself, how am I going to fix the tire? Received a call from Trinity – ran to Olympic House where I received my bike and felt like a teenager with the greatest gift ever. Thank you again for the generous donations it really means alot to me”. - Jamal

Brian has always had a passion for cycling and always used a bicycle as his mode of transport. Unfortunately earlier in the year Brian had his bike stolen and could not afford a replacement I found he wasn't leaving the house half as much as he did when he had his bicycle.

Brian is now using his new bike to go off out on bike rides to explore new areas and lovely parts of nature, he has seen an improvement in his mental health because he is often cycling and finds this as u useful escape when he is not having a great day.

Brian is extremely grateful for the kind gift now he can continue to cycle and be happy and he would like to extend his thanks and gratitude to all involved.
